

DISCOMÒBILMR

sound | lighting | love

2026 SEASON

Welcome **MESSAGE**

If you're reading these lines, chances are you have a very special reason: you're about to say "I do."

That means you're in the middle of a truly unique moment—filled with emotions, excitement, and endless preparations... and it also means you've thought of us as a possible part of your story.

At Disco Mòbil MR, we want to thank you from the bottom of our hearts for considering us among the options that could be part of your wedding. For us, there's no greater privilege than helping turn such an important day into an unforgettable night.

Our mission is simple: to bring the music, atmosphere, and energy that will make this moment one you and your guests will remember forever. Whether it's the song that brought you together, those hits that get everyone dancing, or the lighting that adds magic to every moment, we're committed to making every detail perfect.

Get ready to experience a celebration where every note, every light, and every smile share one purpose: to honor your love the way it deserves.

Thank you for trusting us with such a meaningful part of your journey.

Your wedding is one of a kind... and so will be the party.

Marc Rodríguez Brujats
Disco Mòbil MR CEO

ABOUT US

Disco Mòbil MR began its journey in 2002. Its founder, musician and pianist Marc Rodríguez, started by performing live music in restaurants and dance halls. With the rise and consolidation of the DJ phenomenon, the project evolved into one of the most renowned mobile discos on the Costa Brava.

With over 1,200 weddings and numerous events behind us, we have earned the trust of the leading venues and event spaces in the region — a testament to our experience and professionalism.

We offer state-of-the-art sound, lighting, projection, and special effects equipment, constantly updated to ensure top performance, along with a dedicated team known for its warmth, attentiveness, and ability to adapt to any type of celebration.

Our music library, continually refreshed and featuring more than 75,000 songs, allows us to provide the perfect soundtrack for every moment and every audience.

At Disco Mòbil MR, we combine quality, value, and service to create a unique concept of entertainment and celebration — turning every event into an unforgettable memory.

Little stars to light up your magical celebration.
- 05** **Special Effects: Cold Spark - Low Fog**
Stunning visual effects — safe, spectacular, and full of magic.
- 06** **Audio Guestbook**
The guestbook you can listen to.

DJ's SOUND SERVICES

A wedding is so much more than just saying “I do”... it's the party of your lives!

At Disco Mòbil MR, we bring the music, energy, and good vibes to make sure you and your guests dance until the very last song.

We'll carefully coordinate every key moment — the grand entrance, the cake cutting, the special dedications... and, of course, the first dance that no one will want to end.

With us, your soundtrack will have it all: today's hits, timeless classics, and the songs that tell your love story.

Our experience in wedding protocol allows us to bring calm, confidence, and a touch of distinction to your celebration.

Chic when it starts, wild when it explodes — that's how we do weddings.

MAGIC MIRRORBALLS

At Disco Mòbil MR, we love reinventing the party, which is why we've recently brought a true classic into our repertoire: the legendary mirrorballs. Iconic in the discos of the '70s and '80s, they continue to captivate with their ability to transform any space into an experience full of light, energy, and memories.

When light hits their mirrors, thousands of sparkling points dance across the room, creating a vibrant, magical, and festive atmosphere. Mirrorballs are more than just decorative elements: they are the heart of an authentic retro disco, producing an elegant and hypnotic effect that connects with all generations and gets everyone on their feet.

With this reinvented classic, we add a vintage and sophisticated touch to your event, blending the nostalgia of the seventies and eighties with modern power and technology.

At Disco Mòbil MR, we don't just bring music and light — we make your party shine like never before.

PHOTOBOOTH

360° VIDEOBOOTH

At Disco Mòbil MR, we offer two exceptional options to make your wedding even more special: the classic photobooth and the stunning 360° videobooth. The photobooth is perfect for every guest — children, adults, and seniors alike.

It provides photo strips and digital copies, in color or black and white, with fun props so that everyone can take home a memorable and instant keepsake of your Big Day.

The 360° videobooth is the latest trend. A rotating platform that captures spectacular slow-motion videos with music, creating original, shareable content that everyone will want to post on social media.

Two different experiences, but with the same goal: bringing fun, novelty, and lasting memories to your celebration.

LED CURTAINS LIGHTING

If you're looking for innovation, minimalism, and a way to make your event truly stand out, lighting is a key element. A well-designed lighting plan can completely transform the atmosphere and make a remarkable difference at any celebration or corporate event.

Perimeter lighting consists of lines of light applied to ceilings, walls, floors, or facades, creating a clean and elegant effect that highlights the architectural features of the space. The layout of these lines is fully customizable, allowing adaptation to the venue's characteristics and the creation of visually striking patterns or shapes.

For perimeter lighting, we use 12x18 W LED fixtures with batteries, controllable via tablet or DMX, eliminating the need for cables. This technology delivers high performance, low energy consumption, and reduced heat output compared to traditional lighting sources.

Where space allows, we also incorporate micro-LED curtains, which at night turn into tiny stars, adding a magical and unforgettable touch to the evening.

In short: an elegant, innovative, and spectacular solution, capable of transforming any event into a truly memorable experience.

VISUAL EFFECTS

COLD SPARK – LOW FOG

Few details make a celebration as unforgettable as the charm of fireworks. Cold spark fountains, also known as Sparkulars, are now one of the most sought-after options for weddings and events: they create a magical and romantic atmosphere... and best of all, they are completely safe, as they don't burn.

This innovative technology, developed by Showven Technologies, was created as an alternative to traditional fireworks. Free of smoke and heat, Sparkulars use tiny particles of zirconium and titanium to produce spectacular sparks – just as bright and impressive, but far safer and more adaptable.

One of their greatest advantages is versatility: they can be used both indoors and outdoors. The ceremony exit, the grand entrance to the reception, the cake presentation, or the opening dance are all perfect moments to surprise your guests and add a touch of magic to your Big Day.

AUDIO GUESTBOOK

AUDIO MEMORIES

Ring, ring! You've got a message!

If you follow the latest trends in events and celebrations, you've surely heard of the new "audio guestbook", a fresh alternative to traditional guestbooks.

This phone replaces pen and paper with audio messages, which are saved directly on the device and can later be transferred to a USB drive. The result? A truly unforgettable keepsake.

When your guests pick up the phone, they will hear a pre-recorded welcome message from you, calmly recorded at home, inviting them to leave their own voice message. From there, they can speak, laugh, sing, tell jokes, or share secrets and anecdotes only they know from your past.

We promise spectacular recordings from the very first message!
